

CFMFA

Dear Fort Bend Buyers Group

My name is Cristian Monteroso and I am an Ag student and a member of FFA at Foster High School.

This year was my first year raising an animal for the FFA program and I truly had a wonderful time.

My younger brother also raised an animal this year for his first time, so needless to say, this was definitely a family affair.

I initially thought I would be writing you a letter to thank you for purchasing my goat at this year's freezer sale. But then I looked your organization up online and read about everything you do for FFA and 4-H students who raise and show animals in Fort Bend County and I realized that I have so much more to be grateful to you for. I knew what I was asking for of my parents when I asked them if I could participate in raising a project, but I never thought about what I was asking of my community.

As I was reading about your organization it was surprising and awesome to see the different members that donate to help you do what you do. And to my surprise, some I personally know. It really made me open my eyes to how great and giving our community is.

There is a pride that comes with showing animals. You get to see the result of all of your hard work as your animal grows and becomes more responsive to you as you go along. It really is great. But you have helped me become open to a different sense of pride, a pride in my community.

So please accept this letter with all of my gratitude for not just purchasing my goat but for all you do for my peers and I.

I look forward to seeing you next year!

sincerely,
Cristian
